

For Easy, Time saving, User-friendly dental training & education  
To meet practical demands, ADEM has been evolving day by day.

## PER31F-UPLA001 Severe Periodontology Study Model

This model demonstrates the severe periodontology,  
applying dental calculus on each tooth surface for scaling practice.  
Soft gingivae facing enables incision and suture for root planing practice.

For practical training of scaling and root planing.  
Dental calculus is applied to the tooth surface  
supragingivally and subgingivally.

#26 is extruded due to  
the loss of #36 while  
#37 is inclined mesially.

Furcation  
involvement created  
on #16,26,36.

Vertical bone  
resorption on #23

For flap operation,  
gingivectomy and suture  
practice

Artificial dental calculus  
One liquid type.  
(Optional)

Work with both ADEM Phantom and Simple Manikin
