

For Easy, Time saving, User-friendly dental training & education
To meet practical demands, ADEM has been evolving day by day.

EDN-001-UPLA

Soft Gingiva Edentulous Model with stopper and mountable articulator

Impression taking

Completely edentulous with soft gingivae having morphological features such as pterygomaxillary notch and palatine foveola, which give an indication of impression technique training.

Soft urethane tissue covering over hard resin base.

Bite-taking

In combination with wax rim, using ADEM System, you can practice how to set the occlusal plane and bite-taking in vertical position or horizontal position.
